

Hello lovely,

Well, here we are, Catalog #3...January 4th, 11:37am, weeks after the catalog was actually due. I wish that I could say that we didn't run behind on every single deadline this year, but as I read last year's catalog note, everything is different, yet everything is the same. The catalog proof is actually already printing, with the table of contents in this spot, so I'm hoping to get it finished and squeeze it in. One of the huge differences in this catalog and the prior year's, is that we are having to print them ourselves. Ironically enough, our production floor supervisor's name is Larry, so literally all the "Larry the catalog guy" references from the past are still pretty relevant. We aren't a catalog printing company, yes we make notebooks, but we don't make catalogs, until of course we find ourselves at a "make or buy" decision during the middle of a global pandemic. Hope you love our coil bound catalog! I honestly, dig it a little more than I thought I would. I'm incredibly proud that we were able to shuffle, make sacrifices, and run this catalog in house. No more over producing catalogs!

We'll be able to run them small batch, with edits along the way, which is a really helpful situation for us.

This year has been about sacrifices, opportunity cost, and being nimble. We know you've experienced a lot of the same. We're always tired, we work hard, but much like you know, this is different from the everyday tired. The added pandemic worries, stress, emotional toll, sickness, and safety have brought on new levels of extreme exhaustion. Much like everyone we've seen incredible hardships this year and we've done everything in our power to keep making, to pivot, and to create products that would support you as well as us during this time. Y'all have shown up in a way that I would've never imagined. Watching each of you as you pivoted your businesses this year, made urgent changes, were flexible, kind, patient, understanding, and determined brought a whole new meaning to why we do this.

I've always said what lead us down this retail path 3 years ago with this brand was the thought of creating, designing, and making goods that would be sprinkled in adorable shops and boutiques. Oh man, I can't put into words what this statement means now that we've done been through some shit together. We are so honored. Just honored that you choose our goods to go on your shelves. In last year's note, I mentioned how much emotion comes with wrapping up our 2nd catalog. That's cute, I didn't know emotion then. I mentioned wanting to thank each of you for the role you have played in our journey and for believing in us. That sentiment will ALWAYS be the case, and it has only grown and intensified. We are so grateful for you.

While this year has been nothing but challenges or "opportunities" as we like to call them around here, we have still accomplished great things. We are most proud of the fact that we have had ZERO Covid related layoffs and have been able to keep everyone employed, including across our manufacturing division! We opened our STOREFRONT!! The pandemic brought about new products ideas and was key in developing our self-care kits, socks, and an entire new sweep of clear glass mugs that you all have just absolutely LOVED. We got on board early with masks, and that helped introduce us to so many new stockists. We finally, FINALLY got that goal-getter planner out of our brains, and onto paper, what a beauty.

The entire time we were designing it and mapping it out, all we wondered is if it would be worth it, would people need this, or was it just us? The people have spoken. The planner is a hit, and we look forward to expanding our offering there for academic year as well. In this new catalog we're thrilled to be launching blankets, TOOTsie Rolls, a brand new mug shape featuring the "colorful" language and art, socks, we've got some new wall art and notebooks, and our new retro groovy collection of goods.

We are just as eager as you are to write off 2020 and start fresh, but we also want to take a moment and celebrate what we endured and prevailed through together. We certainly couldn't have done it without you - our partner.

Thank you for continuing to trust and believe in us. Looking to a bright, shiny, brand new year with you.

XOXO,
Melissa and
the toot team

TALKING OUT OF TURN

Welcome to Talking Out Of Turn!

We've learned a few things since opening our own flagship store this year! With the opening of our store, we are able to relate to our retail partners more than ever. We want to give you the best tips and tricks to show off our products in your stores. Make it cute! We love to see the ways stores merch our products but if you feel stuck, feel free to use some of these ideas to spice up your displays.

Can't get enough? Need links to our frames and shelves? We've got you. To get a more in depth look into how we merchandise, check out our blog at talkingoutofturn.com/merchandising

Style a small writing table with our desksets, notebooks, pens, pencils and more!

Pop open a Selfie Care Kit and a Desk Set to show off what's inside.

Pro-Tip
Chances are someone is buying this as a gift. Be sure to let your customer know there is a card included for them to fill out for the person they are gifting it to... Especially if you are wrapping this box for them - don't wrap the card up with it.

Throw folded up Twist & Shouts into baskets for a full look.

The more the merrier! Fill clear glass cylinders with enamel pins, stickers, or scrunchies near your cash register for that impulse buy.

Stack those mugs!

Hang up Twist & Shouts to show their sizes.

Pen Bar items are our top sellers in our store!

Create a "Pen Bar" for the win! Group colors together in rainbow fashion, create different color moods, or make a pattern and see your pen bar come to life.

Art prints have done shockingly well in our store. One thing we do to set ourselves apart is offer to frame them. People love leaving the store with the work already done for them!

Show customers how to style art prints with a collage of frames. It will inspire them to try it out at home!

Use jewelry holders to show off Penny Key Rings.

Pro-Tip
Don't have a built in counter for a pen bar? No worries! The Vittsjo shelf from Ikea is the perfect height. That is what we use for our showroom pen bars.

FACE MASKS

Face Masks

W \$6.50 | R \$13 | Min 6

Material: Made of microfiber, nice and soft. Launderes like a dream, machine wash and dry, no problem.

Note: These masks do NOT have a pocket or filter liner.

Sizing

Our Small masks are petite and fit nice and snug. Most of the masks we tried on or found available were really big, so we went with a size that we consider to be "small." If you are concerned the fit will be too tight, it's safe to go with a Medium. They have slightly more breathing room.
